ANSWERING THE QUESTION

120MIN TO ANSWER

2025

1. The answer should be structured in two steps, with an explanation and a final answer.
2. Step 1 should include the following:
 - What is the question asking?
 - What needs to be done?
 - What data is provided? The explanation in Step 1 should consist of only 1 or 2 lines and must not include any LaTeX words.
3. Step 2 is a continuation of Step 1. The main answer begins in Step 2, where the answering process starts. This step should provide detailed explanations of how to proceed, focusing on what should be done next.
4. The final answer must be provided in one line, which should be easy to understand and clear without any issues.

THE EXPERT HUB

Note:

- 1.The explanation should only summarize what is stated in the steps in 1 or 2 lines.**
- 2.Do not repeat the lines from the steps in the explanation.**
- 3.A minimum of 3 steps is required to ensure the student can easily understand.**
- 4.Do not use AI or AI applications in the process.**
- 5.An explanation is compulsory for every step.**
